*I welcome you* to this practice and hope you will find you have benefited, when we have completed therapy. Therapy is a **mutual** relationship. Once you have identified what problems you are having, we will work together to identify what you want in place of these problems. What we do in therapy is based on what you identify as your strengths and weaknesses as well as how determined you are to work on making **changes**. Ultimately, your efforts within and outside the sessions will determine how successful your therapy will be.

A therapist can help you see alternatives and ways to change things, but....

**Only you are the one who will make it happen.**

### **Your responsibilities:**

To provide honest and correct information to the therapist.

To keep your appointments, or cancel in a timely manner.

To pay for your counseling.

### **Therapist's responsibilities:**

To listen and respond to what you are saying and asking.

Provide you with timely and up to date information.

To refer you to someone else if you need additional help.

### **Your rights:**

To consent to treatment as well as to stop therapy.

To privacy: Every effort will be maintained to safeguard your privacy, including you being a patient or your diagnosis (etc.) unless you have provided written authorization or where mandated by state and federal statutes, which specify three exceptions: threatening to harm yourself or others or ordered by a judge.

### **Limitations:**

Treatment isn't always successful and may open unexpected emotionally sensitive areas.

Christopher Galton is not a physician and cannot prescribe medications.

If you feel you need different or additional service, Christopher Galton will be glad to help you find that.

Christopher Galton is not available 24 hours a day. If you cannot reach him, you may go to your local hospital's Emergency Department.
